Global Financial Reset: Surviving and Thriving the Transition

As General Flynn often reminds us, we need to identify our enemy and know what makes them tick. A brief stroll through history identifies an early cause of the problem, the devastating results of the prolonged hijacked and corrupted system, leads us to the danger zone which is where we find ourselves today.

The battle of the resets heats up. Competing parallel systems at play.

- Who will be the winner?
- What are the consequences of inaction or the wrong action?
- How to navigate this transition and the great unknown.
